

2008 Four-Tier Prescription Drug List Reference Guide

Your UnitedHealthcare pharmacy benefit offers flexibility and choice in finding the right medication for you.

This guide will:

1. Help you understand your medication choices and make informed decisions.
2. Help you understand which questions to ask your doctor or pharmacist.

What is a Prescription Drug List (PDL)?

A PDL is a list of Food and Drug Administration (FDA)-approved brand name and generic medications.

Your UnitedHealthcare pharmacy benefit provides coverage for a comprehensive selection of prescription medications. Below you will find some commonly prescribed medications for certain conditions. You and your doctor may refer to this list to select the right medication to meet your needs.

The benefit plan documents provided by your employer or health plan include a Summary Plan Description (SPD) or a Certificate of Coverage (COC). Please refer to these documents to determine which medications are covered under your individual plan.

Understanding Tiers

Prescription medications are categorized within four tiers. Each tier is assigned a copayment, the amount you pay when you fill a prescription, which is determined by your employer or health plan. Consult your benefit plan documents to find out the specific copayments, coinsurance and deductibles that are part of your plan. You and your doctor decide which medication is appropriate for you.

Tier 1 – Your Lowest-Cost Option

This is your lowest copayment option. For the lowest out-of-pocket expense, you should always consider Tier 1 medications if you and your doctor decide they are right for your treatment.

Tier 2 and Tier 3 – Your Midrange-Cost Options

Consider Tier 2 medications if you and your doctor decide that a Tier 2 medication is right for you.

If you are currently taking a medication in Tier 3, ask your doctor whether there are Tier 1 or Tier 2 alternatives that may be right for your treatment. Sometimes there are alternatives available in Tier 1 or Tier 2 that may be appropriate to treat your condition.

Tier 4 – Your Highest-Cost Option

This is your highest copayment option. Sometimes there are alternatives available in Tier 1, Tier 2, or Tier 3 that may be appropriate to treat your condition. If you are currently taking a medication in Tier 4, ask your doctor whether there are Tier 1, Tier 2, or Tier 3 alternatives that may be right for your treatment.

Compounded medications, medications with one or more ingredients that are prepared “on-site” by a pharmacist, are classified at the Tier 3 level. However, if any one of the ingredients in the compound is classified as being on Tier 4 then a Tier 4 copayment will apply.

Please note: *Some plans have a two-tier pharmacy benefit rather than a four-tier pharmacy benefit. Generally, a two-tier closed pharmacy benefit plan does not cover medications classified in Tier 3 and Tier 4 of this PDL. A two-tier open pharmacy benefit plan covers one tier at the lower copayment and covers a second tier at a higher copayment.*

In addition, some plans have a three-tier prescription plan. Refer to your enrollment materials, check the Drug Pricing / Coverage information on www.myuhc.com, or call the Customer Care number on your ID card for more information about your benefit plan.

Who decides which medications get placed in which tier?

The UnitedHealthcare PDL Management Committee makes tier placement decisions to help ensure access to a wide range of medications and control health care costs for you and your employer or health plan. The PDL Management Committee is comprised of senior level physicians and business leaders. You and your doctor decide which medication is appropriate for you.

What factors does the PDL Management Committee look at to make tier placement decisions?

The PDL Management Committee decides the tier placement of a particular prescription medication based upon clinical information from the UnitedHealthcare Pharmacy and Therapeutics (P&T) Committee and economic and financial considerations. The Committee looks at the overall health care value of a particular medication in order to balance the need for flexibility and choice for our members and an affordable pharmacy benefit for employer groups and health plans.

How often will prescription medications change tiers?

Medications may move to a higher tier up to three times per calendar year, depending on your benefit. Additionally, when a brand name medication becomes available as a generic, the tier status of the brand name medication and its corresponding generic will be evaluated. When a medication changes tiers, you may be required to pay more or less for that medication. These changes may occur without prior notice to you. For the most current information on your pharmacy coverage, please call the Customer Care number on your ID card or visit www.myuhc.com.

What is the difference between brand name and generic medications?

Generic medications contain the same active ingredients as brand name medications, but they often cost less. Generic medications become available after the patent on the brand name medication expires. At that time, other companies are permitted to manufacture an FDA-approved, chemically equivalent medication. Many companies that make brand name medications also produce and market generic medications.

The next time your doctor gives you a prescription for a brand name medication, ask if a generic equivalent is available and if it might be appropriate for you. While there are exceptions, generic medications are usually your lowest cost option. Please note that some generic medications may be in Tier 2, Tier 3, or Tier 4 and will not have the lowest copayment available under your pharmacy benefit plan. Go to myuhc.com to determine the copayment for your generic medication.

Why is the medication that I am currently taking no longer covered?

Medications may be excluded from coverage under your pharmacy benefit. For example, a prescription medication may be excluded from coverage when it is therapeutically equivalent to an over-the-counter medication. Medications on the PDL and other over-the-counter medications may be available.

When should I consider discussing over-the-counter or non-prescription medications with my doctor?

An over-the-counter medication can be an appropriate treatment for many conditions. Consult your doctor about over-the-counter alternatives to treat your condition. These medications are not covered under your pharmacy benefit, but they may cost less than your out-of-pocket expense for prescription medications.

Why are there notations next to certain medications in the PDL, and what do they mean?

The specific definitions for these notations (QLL, QD, N, etc.) are listed at the bottom of each page of the PDL and refer to our pharmacy programs. These programs can help:

- Confirm coverage based on your benefit plan
- Alert pharmacists and doctors of potentially harmful medication interactions
- Notify your pharmacist and doctor of duplication in treatments

Please call Customer Care if you need additional information about these notations.

What should I do if I use a self-administered injectable medication?

You may have coverage for self-administered injectable medications through your pharmacy benefit plan. UnitedHealthcare has developed a specialty pharmacy network for these medications. Please call our toll-free Specialty Pharmacy Referral Line at 1-866-429-8177 where a representative will answer questions about our program and then transfer you to a specialty pharmacy based on your particular specialty medication prescription.

How do I access updated information about my pharmacy benefit?

Since the PDL may change periodically, we encourage you to visit www.myuhc.com or call the Customer Care number on your ID card for more current information.

Log on to myuhc.com for the following pharmacy resources and tools:

- Pharmacy benefit and coverage information
- Specific copayment amounts for prescription medications
- Possible lower-cost medication alternatives
- A list of medications based on a specific medical condition
- Medication interactions and side effects, etc.
- Locate a participating retail pharmacy by zip code
- Review your prescription history

And, if mail order is included in your pharmacy benefit, you can also:

- Refill prescriptions
- Check the status of your order
- Set up e-mail reminders for refills
- Manage your account

What if I still have questions?

Please call the Customer Care number on your ID card. Representatives are available to assist you 24 hours a day, except Thanksgiving and Christmas.

If you have pharmacy benefit coverage with UnitedHealthcare, you may learn more about your benefit by visiting www.myuhc.com or by calling the Customer Care telephone number printed on your ID card. If you are not currently enrolled with UnitedHealthcare for pharmacy benefit coverage, you may access www.myuhc.com for additional information during your open enrollment period or you may contact your employer or health plan for additional information.

In certain documents, the Prescription Drug List (PDL) was referred to as the "Preferred Drug List (PDL)." This change in descriptive terms does not affect your benefit coverage. Where differences are noted between this PDL reference guide and your benefit plan documents, the benefit plan documents will govern.

2008 Four-Tier Prescription Drug List Reference Guide

Tier One

Acebutolol	Bumetanide	Diflunisal
Acetaminophen with Caffeine and Butalbital	Bupropion QL	Digoxin
Acetaminophen with Codeine QL/QD	Bupropion Sustained Action QL, N	Diltiazem Controlled Release Capsule
Acetaminophen with Codeine, Caffeine and Butalbital QL/QD	Buspiron	Diltiazem Sustained Release 12 Hours Capsule
Acetaminophen with Hydrocodone QL/QD	Calcitriol	Diltiazem Tablet
Acetazolamide	Captopril	Diphenoxylate
Acetic Acid with Hydrocortisone Otic Solution	Captopril with Hydrochlorothiazide	Diphenoxylate with Atropine
Acyclovir Tablet, Capsule, Suspension	Carbamazepine	Dipyridamole
Albuterol Extended Release Tablet	Carbidopa/Levodopa	Doxazosin
Albuterol Inhalation Solution	Carisoprodol	Doxepin
Allopurinol	Carvedilol	Doxycycline
Alprazolam	Cefaclor	Econazole
Alprazolam Extended Release	Cefadroxil	Enalapril
Amantadine Tablet, Capsule, Syrup	Cefuroxime	Enalapril with Hydrochlorothiazide
Amiloride with Hydrochlorothiazide	Cephalexin	Enpresse
Amiodarone	Chlordiazepoxide	Ergotamine Tartrate, Belladonna Alkaloids and Phenobarbital
Amitriptyline	Chlorhexidine	Errin
Amitriptyline with Chlordiazepoxide	Chlorthalidone	Erythromycin Base 250, 333mg
Amitriptyline with Perphenazine	Chlorzoxazone	Erythromycin Ethylsuccinate
Amlodipine Besylate	Cholestyramine	Erythromycin Stearate
Amoxicillin	Cholestyramine with Aspartame	Erythromycin with Benzoyl Peroxide
Amoxicillin with Potassium Clavulanate	Cilostazol	Estradiol Patch QL
Amphetamine with Dextroamphetamine Salt Combination	Ciprofloxacin	Estropipate
Ampicillin	Citalopram QL	Etidronate Disodium
Antipyrine with Benzocaine Otic Solution	Clarithromycin Tablet	Etodolac
Asmanex QL	Clidinium with Chlordiazepoxide	Fast Take Test Strips QL, DS
Aspirin with Caffeine and Butalbital	Clindamycin Capsule	Felodipine
Aspirin with Codeine, Caffeine and Butalbital	Clindamycin Gel, Soln, Lotion, Swabs	Fenofibrate
Atenolol	Clindamycin Vaginal Cream	Flecainide
Atenolol with Chlorthalidone	Clobetasol	Fluconazole 50, 100, 200mg N
Aviane	Clomiphene	Fluconazole 150mg QL
Azathioprine	Clomipramine	Fludrocortisone
Azithromycin	Clonazepam	Flunisolide Nasal Spray QL
Baclofen	Clonidine	Fluocinolone
Benazepril	Clorazepate	Fluocinonide
Benazepril with Hydrochlorothiazide	Clotrimazole Troches	Fluocinonide-E
Benzonatate	Clotrimazole with Betamethasone	Fluorometholone
Benztropine	Colestipol	Fluorouracil Cream
Betamethasone Dipropionate Augmented Cream	Cromolyn	Fluoxetine QL
Betamethasone Dipropionate Cream, Lotion, Ointment, Gel	Cyclessa	Flurazepam
Betamethasone Valerate	Cyclobenzaprine	Furbiprofen
Betamethasone with Clotrimazole	Cyproheptadine	Fluticasone Nasal Spray QL
Bisoprolol	Desipramine	Fluvoxamine QL
Bisoprolol with Hydrochlorothiazide	Desmopressin	Folic Acid
Bromocriptine	Desogen	Foradil QL
	Desonide	Fosinopril
	Desoximetasone	Freestyle Lite Test Strips QL, DS
	Dexamethasone	Freestyle Test Strips QL, DS
	Dextroamphetamine	Frova QL
	Dextroamphetamine Sustained Release	Furosemide
	Diazepam	Gabapentin Capsule, Tablet
	Diclofenac	Gemfibrozil
	Dicloxacillin	Gentamicin
	Dicyclomine	
	Diflorasone	

Some medications are noted with N, QD, QL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QL = Quantity Level. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

2008 Four-Tier Prescription Drug List Reference Guide

Glimepiride	Megestrol	Nystatin with Triamcinolone
Glipizide	Meloxicam QL	Ofloxacin Eye Drops
Glipizide Extended-Release	Meperidine	Ofloxacin Otic Drops
Glyburide	Meperidine with Promethazine	Ogestrel
Glyburide Micronized	Metformin	One Touch Test Strips QL, DS
Guanfacine	Metformin Extended-Release	One Touch Ultra Test Strips QL, DS
Halobetasol Cream, Ointment	Methadone	Orapred Oral Solution
Haloperidol	Methimazole	Oxaprozin
Hydralazine	Methocarbamol	Oxazepam
Hydrochlorothiazide	Methotrexate	Oxybutynin
Hydrocodone with Homatropine	Methylidopa	Oxycodone
Hydrocortisone Acetate Suppositories	Methylphenidate	Oxycodone with Acetaminophen QL/QD
Hydrocortisone Valerate	Methylphenidate Extended-Release	Oxycodone with Aspirin
Hydromorphone	Methylprednisolone	PEG 3350/Powder for Solution
Hydroxychloroquine	Methyltestosterone with Esterfied Estrogens	Penicillin V Potassium
Hydroxyzine	Metoclopramide	Pentoxifylline
Ibuprofen - Prescription strengths only	Metolazone	Permethrin Cream
Ibuprofen with Hydrocodone	Metoprolol	Phenazopyridine
Imipramine	Metoprolol Succinate Sustained Release 25mg	Phenobarbital
Indapamide	Metronidazole	Phenylephrine with Chlorpheniramine and Scopolamine
Indomethacin	Metronidazole Cream	Phenylephrine with Hydrocodone
Ipratropium Inhalation Solution	Microgestin	Phenytoin
Isometheptene, Dichloralphenazone and Acetaminophen	Microgestin FE	Pindolol
Isoniazid	Minoxidil Tablet	Piroxicam
Isosorbide Dinitrate	Mirtazapine QL	Polymyxin B with Trimethoprim
Isosorbide Mononitrate	Mirtazapine Dispersible Tablet QL	Portia
Isradipine	Misoprostol	Potassium Chloride
Itraconazole QL, N	Mometasone	Potassium Citrate
Junel	Mononessa	Prazosin
Junel FE	Morphine	Precision Q-I-D Test Strips QL, DS
Kariva	Morphine Sulfate Controlled Release QL/QD	Precision Xtra Test Strips QL, DS
Ketoconazole	Mupirocin Ointment	Prednisolone
Ketoprofen	Nadolol	Prednisone
Ketorolac	Nadolol with Bendroflumethiazide	Prenatal Vitamins - Generic prescription strengths only
Labetalol	Naproxen - Prescription strengths only	Primidone
Lactulose	Necon	Probenecid
Leflunomide QL	Nefazodone QL	Prochlorperazine
Lessina	Neomycin/Polymyxin B/Dexamethasone	Promethazine
Levothyroxine	Neomycin/Polymyxin/Gramicidin	Promethazine with Codeine
Levora	Neomycin/Polymyxin/Hydrocortisone	Promethazine with Dextromethorphan
Lidocaine Viscous	Nifedipine	Promethazine with Phenylephrine
Lisinopril	Nifedipine Controlled-Release	Promethazine with Phenylephrine and Codeine
Lisinopril with Hydrochlorothiazide	Nifedipine Extended Release	Propafenone
Lithium Carbonate	Nitrofurantoin/Nitrofurantoin Macrocrystals	Propoxyphene
Lithium Carbonate Controlled-Release	Nitrofurantoin Macrocrystals	Propoxyphene with Acetaminophen QL/QD
Lithium Carbonate Extended-Release	Nitroglycerin	Propranolol Tablet
Lo/Ovral	Norethindrone	Propylthiouracil
Lorazepam	Nortrel	Pulmicort Flexhaler QL
Lovastatin QL/QD	Nortriptyline	Pulmicort Turbuhaler QL
Maxalt QL	Novolin Vials	QVAR QL
Maxalt MLT QL	Novolog Vials	Ranitidine Syrup
Mebendazole	Nystatin	Relpax QL
Medroxyprogesterone 150mg/ml QL		
Medroxyprogesterone Tablet		
Mefloquine QL		

Some medications are noted with N, QD, QL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QL = Quantity Level. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

NOTE:

- **Compounded prescriptions are Tier Three**
- **Pens & cartridges are Tier Three except for Novolin and Novolog pens and cartridges which are Tier Two.**

Some medications are noted with N, QD, QL, or DS. The definitions for these symbols are listed below. Your benefit plan determines how these medications may be covered for you.

N = Notification. There are a few medications that your doctor must notify us of to make sure their use is covered within your benefit.

QD = Quantity Duration. Some medications have a limited amount that can be covered for a specific period of time.

QL = Quantity Level. Some medications have a limited amount that can be covered at one time.

DS = Diabetic Supplies. Diabetic supplies may be covered by your benefit plan.

Excluded = Many benefit plans exclude coverage of medications that are classified by the Pharmacy and Therapeutics Committee as therapeutically equivalent to over-the-counter medications. Check your benefit plan documents for coverage information or call the Customer Care number on your ID card for more information.

2008 Four-Tier Prescription Drug List Reference Guide
